**100% natural skin lightener  
with Alpha Arbutin**

As we age the skin loses its radiance & glow and the skin gets blotchy, with age spots and uneven skin tones. There are no surgical procedures that can fix this. However a revolutionary new blend of the clinically proven active ingredients found in Nutra-Lift® Brite & Lite will brighten and lighten the skin & fight against age spots. Alpha-Arbutin is a natural derived substance found in cranberries, pears and blueberries with known melanin-inhibiting properties. In addition, the proven extracts of Licorice, Emblica fruit, Bearberry, Mulberry, Grape, Morus Bombycis Saxifraga Sarmentosa and Scutellaria Baicalensis. Plus the exclusive Tetrahexdecyl Ascorbate BV-OSC Ester, a very specialized form of vitamin C that has shown the reduction of melanin by 80%. Also included is the multifunctional benefits of Salicylic Acid. Nutra-Lift® Brite & Lite will help reduce the appearance of age spots, blemishes, dull skin, uneven skin tones and skin imperfections.
